# CONDY, JHON CARLO

## SOFTWARE DEVELOPER

+639603558652 https://condy.is-a.dev jhoncarlo.condy@gmail.com Calooocan City, Philippines

## PROFESSIONAL SUMMARY

Software Developer specializing in backend development. Experienced with agile methodology for dynamic web applications. Well-versed in numerous programming languages and frameworks including PHP, Laravel, CodeIgniter, JavaScript, VueJS, ReactJS, Tailwind, and MySQL.

## WORK EXPERIENCE

**FULL STACK DEVELOPER** **June 2025 - April 2026**

VIPTutors Co.

London, England (Remote)

- Migrated application from CodeIgniter to Laravel, improving performance by 30% and reducing maintenance time by 25%.
- Integrated AI-powered functionalities (e.g., speech analysis, NLP, auto-generation) using APIs like AssemblyAI and OpenAI.
- Developed and maintained responsive front-end interfaces using Vue 3 (Composition API).
- Supported and maintained legacy CodeIgniter systems during transition phases.
- Designed and implemented RESTful APIs in Laravel with authentication, caching, and queue management.
- Zoom Meeting Integration for seamless communication between tutors and students, enhancing user experience and engagement.
- Leveraged OpenAI, Gemini, and DeepSeek APIs to power post-session summaries, automated quiz and flashcard generation, and personalized learning recommendations.
- Utilize AI services such as AssemblyAI for speech analysis, GPTZero for content originality detection, and SpeechSuper for speech-to-text conversion.

**SOFTWARE DEVELOPER** **November 2024 - March 2025**

ADEC Innovations

Muntinlupa, Philippines (Remote)

- Developed an internal web application using React, React Query, ShadcnUI and TypeScript that enabled users to access the company's resources with ease
- Maintain and support internal web applications by developing and enhancing features using AngularJS for the frontend and Java Spring Boot for the backend
- Collaborate with cross-functional teams to gather requirements, design solutions, and implement features that meet business needs

**WEB DEVELOPER** **March 2022 - August 2024**

Grapelabs Technologies Corp
Canada (Remote)

- Maintain and develop CRM Website
- Integrate third-party services and payment solutions
- Implement unit tests to ensure quality code
- Secure customer information using micro-services such as AWS
- Creating reports for analytics using MySQL and VueJS
- Create and Manage admin panel using Laravel Nova
- Data Synchronization and Workflow Automation using n8n and directus
